

CONDUCTOR STRINGING EQUIPMENT

Helicopter Stringing Blocks

For Single Conductor

The 500 Series Helicopter Stringing Blocks are suitable for stringing overhead single conductors and earthwire using helicopter construction techniques. All blocks incorporate a spring loaded side gate for easy installation of the pulling rope and retention on the conductor in the sheave during the stringing operation.

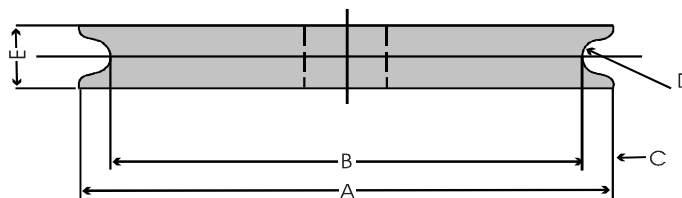

STANDARD FEATURES

- Nylon sheave with ball bearings.
- Compact steel frame.
- Crosshead and type 'B' socket for suspension.
- Lightweight construction.

Dimensions

- Diameter 30.69 in.
- Weight 54 lbs.
- Working Load 8,000 lbs.
